1 July 2008

ASX Limited

- **Tox Free Solutions signs binding sale agreement to acquire Barry Brothers Specialised Services Pty Ltd**
- **Barry Brother's is one of the largest industrial service companies in Australia with ten strategically located operations throughout the eastern states**
- **The combined services of Tox Free and Barry Brothers will create one of Australia's leading industrial services and waste management companies.**

Following extensive commercial, legal and financial due diligence, Tox Free Solutions Limited ("Tox Free") is pleased to announce it has signed a binding sale agreement to acquire Barry Brothers Specialised Services ("Barry Brothers.") from Programmed Maintenance Services (ASX Code: PRG).

The financials of Barry Brothers will be consolidated into the Tox Free group as of 1 July 2008.

Through the due diligence process, Tox Free has spent considerable time with the management team and employees of Barry Brothers and are very impressed with the management teams commitment to both the Barry Brothers business and more so the opportunity of the combined organisation.

Over the coming weeks Tox Free and Barry Brothers management will execute the integration strategy to combine the services of both organisations in order to maximise the synergies.

Tox Free expect immediate synergy to be gained through the offering of industrial waste treatment services to Barry Brothers client base. Further immediate synergy will be gained through the use of Barry Brothers expertise to expand Tox Free's industrial services on the west coast of Australia.

In summary, Barry Brothers provides Tox Free with immediate scale throughout the eastern states of Australia in which the company can expand its industrial services and waste treatment business. Whilst there is immediate synergy to be gained through the acquisition of Barry Brothers, Tox Free expect the real value of the synergies to be fully realised in the medium term.

In the coming weeks Tox Free will present to the market the company's detailed plan to develop Australia's leading waste management and industrial services business.
