Programmed secures offshore oil and gas agreement

Programmed (ASX:PRG), which provides staffing, maintenance and facility management services, today announced the award of a significant agreement with Technip Oceania Pty Ltd (Technip) to provide manning and logistical support services in support of the hook-up and commissioning phase of the Prelude FLNG project, operated by Shell Australia.

Chris Sutherland, Managing Director, said: "We are delighted to support Technip on the Prelude FLNG project. Following our successful execution of previous works associated with the Gorgon, Wheatstone and Ichthys projects, I am confident that our Programmed Marine team will again deliver a safe and exceptional service to Technip and the Prelude FLNG project as a whole."

Programmed will begin preparatory works immediately with our work offshore expected to commence in 2017.
